Interests

Networked Learning in Online Communities:

- * *Social media*: online learning environments, affinity spaces, learning ecologies
- * *Educational data mining*: digital traces, big data
- * *Learning analytics*: social network analysis, discourse analysis, natural language processing

Related Projects:

- * Educational Twitter Hashtags
- * Teaching-Related Subreddits
- * New Teachers' Social Media Use During Induction
- * Social Scholarship
- * Data Science in Education

Education

Michigan State University

Ph.D., Educational Psychology & Educational Technology

Expected Spring 2021

- * Dissertation: *Into the edu-verse: New teachers seeking induction support on social media*
- * Committee: Matthew Koehler, Christine Greenhow, Ralph Putnam, Gail Richmond
- * Proposal defended: November 26, 2019

Teaching

Courses Taught

Teaching & Learning with Technology (Undergraduate, online, 7x)

2017-2020

- * Course topics include design thinking, universal design for learning, media & information literacy, professional learning networks, computational thinking, and play-based learning.
- * Students develop plans for integrating technology in classroom.
- * The semester-long project is to design a professional *online portfolio*.

Learning Technology by Design (Master's, online, 3x)

2018-2020

- * Course topics include design thinking, the design process (empathize, define, ideate, prototype, test), designing for learners, iterative design. and collaboration in design.
- * Students discuss examples of good and bad designs from everyday life.
- * The semester-long project is to work through one cycle of the design process to address a *problem of practice* from the student's professional context.

Electronic Assessment for Teaching and Learning (Master's, online, 3x)

2018-2020

- * Course topics include foundational theories of assessment, formative assessment, feedback, and a critical examination of methods for assessment (e.g., portfolios, rubrics, surveys, tests, self-evaluations).
- * Students develop an *assessment design checklist* to use in their own professional practice.
- * The semester-long project is to plan a *formative assessment design* to implement in their own context.

Teaching Students Online (Master's, online, 1x)

2017

- * Course topics include foundations for online learning, course management systems, various models of online course design, instructor-student communication, assessment, universal design for learning, and online classroom management.
- * Students playfully explore Google Apps, course management systems, screencasting tools, and file management systems.
- * The semester-long project is to design a curriculum for an *online course module* consisting of 3-5 interconnected lessons, which may include training sessions or non-traditional courses.
